| Fixing, repairing toilets and handling human waste is not a pleasant job and the charges passed on reflect this. At this time of year it is very hard to get toilets repaired because of the demand for marine engineers etc so they are working as quickly as possible so they are working properly for future charterers who have paid for 2 working toilets. |     |      |     |         |        |

| All guests are requested on all charters to NOT put anything down the toilets other than human waste.<br>This is included in the briefing, on the notes & waiver what ALL guests sign just after they get on the vessel and as well signs are on each toilet saying please do not put any non human waste down the toilet. As far as I am aware this is the first time we have charged anyone for toilet breakdown on Varuna in over 3 years of charter operation and this repair has been verified that it was caused during this charter as the toilet had been working without any issues for the one hour up to the time the toilet failed.<br><br>Ref-18889 Andrea - 23rd November 2019 - Varuna Charter |     |      |     |         |        |
