## General Terms and Conditions for Sydney Harbour Boat Tours

### ARRIVAL TIME!

Please allow time for traffic, parking etc and arrive at your designated wharf at least 15 minutes prior to the confirmed departure time, to ensure that you can be ready to board and depart quickly, ensuring you'll have maximum time on the water.

Note that Sydney wharves do not allow for signage and we do not have a representative or office at the location. Our boats cannot stay long at the wharves either, so the vessel will dock about 10 minutes before departure, so don't worry if the boat is not there 15 - 20 minutes before departure - it will definitely be there on time. If you have any concerns call 1300 183 365. The vessel must return at the designated return time, irrespective of any delays in departure caused by late arrivals.

Note that the legal maximum number of guests on the private boat is 10, so the captain cannot allow any groups of more than 10 guests to board.

### CANCELLATIONS

i) Cancellations or postponements made by the Customer less than 14 days before departure are not permitted and will attract a 100% cancellation fee and no refund. Cancellations or postponements made by the Customer more than 14 days but less than 30 days before departure will attract a 50% cancellation fee. Cancellations or postponements made by the Customer more than 30 days before departure may be made without penalty and a full refund will be provided or another date can be chosen, or a credit offered. Please write to [info@sydneyharbourboattours.com](mailto:info@sydneyharbourboattours.com) to request a refund.

Note that contracting Covid or a Covid-related illness or being a close contact does not warrant a refund, however, if a positive Rapid Antigen Test is provided the Operator may choose to arrange an alternative future date or provide a credit valid for 2 years (subject to availability).

ii) Cancellations made by the Operator due to severe/dangerous weather conditions or mechanical issues will entitle the Customer to a full refund, or they may choose a credit for another charter of the same price or duration. Note that the Customer cannot cancel due to weather conditions, this is purely at the discretion of the Operator and will be based on maritime safety advice, based on extreme winds and swell. Charters will still operate if rain is scheduled - all boats have rain protection.

### BEHAVIOUR & SAFETY

The captain of the vessel reserves the right to refuse entry or disembark any customer he/she deems to be disruptive, intoxicated, dangerous or a threat to the health and safety of the crew, passengers or vessel. Any passenger who has been removed or not allowed to enter the vessel will not receive a refund and may be subject to police or maritime action.
